

Charter of commitment International Buddy Program

The international Buddy Program carried out by the International Office (DRIF) aims to make it easier to welcome and integrate students and PhD students on supervised and individual mobility into the Auvergne community. Additionally, this initiative is intended to encourage intercultural interactions, mutual help and to create long-lasting ties between local and international students. Finally, international mentoring fosters a better understanding and a deeper awareness of the world's cultures' richness.

The UCA, through the Department of International Relations and Francophonie, remains available to answer any questions via the following email address: buddy-program.drif@uca.fr as much as possible. Training sessions or workshops may be offered to support the mentors and mentees in their roles. Additionally, events will be organized to encourage meetings and exchanges between pairs and participants. Finally, the program will be evaluated to improve its effectiveness, particularly through satisfaction surveys.
